DETAILED ACTION

1. Claims 1-3 and 31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-3 are drawn to an improper Markush practice by the recitation of "selected from...or...".

Claim 31 recites "such that". The recitation renders the claim indefinite.

2. Claim 26 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. There is no antecedent basis for the recitation of the reaction of "esters" in the independent claim.

3. Claims 5-21, 30 and 31 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend on another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Art Unit: 1711

Claims 1-32 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Putzig et al '714.

The cited prior art discloses a catalyst composition comprising a titanium compound, a phosphorous compound, an amine, a solvent having at least two hydroxyl groups, and a cocatalyst. See columns 3-7. The catalyst composition is used in preparing polyesters by the reaction of a carbonyl compound and an alcohol by esterification. The prior art disclosures have features as claimed.

5. References listed on PTO-1449 have been made part of the record.
